CAREER OBJECTIVE

B.Tech Information Technology student seeking an entry-level Front-End/Full-Stack Developer role with hands-on experience in HTML, CSS, JavaScript, Java, Spring Boot, MySQL, and REST APIs. Interested in developing responsive web applications, integrating APIs, and building user-focused web solutions.

TECHNICAL SKILLS

Programming: Java
Web Technologies: HTML5, CSS3, JavaScript
Backend: Java, Spring Boot, REST APIs
Database: MySQL
Core Concepts: Data Structures, Algorithms, OOP, Problem Solving
Tools: Git, GitHub, Postman, VS Code, Eclipse

EDUCATION

B.Tech Information Technology **2023 – 2027**

Adhiyamaan College of Engineering (Autonomous), Hosur, TamilNadu.

CGPA : 9.5

Higher Secondary Education **2022 – 2023**

Siva Matric Hr. Sec. School, Uthangarai, TamilNadu.

83%

INTERNSHIP EXPERIENCE

Java Programming Intern | InternPe **Dec 2025 – Jan 2026**

- Developed Java programs by applying core programming, OOP, and problem-solving concepts.
- Strengthened logical reasoning and debugging skills through hands-on coding exercises.

Frontend Development Intern | AngamTech **1 Apr 2026 - 30 Apr 2026**

- Built responsive web interfaces using HTML, CSS, and JavaScript with focus on usability and cross-device compatibility.
- Developed user-facing features, reusable UI components, and performed browser-based testing and debugging.

Java Full Stack Development Intern | VEI Technologies **1 June 2026 - 30 Jun 2026**

- Gained hands-on exposure to full-stack web application development and client-side and server-side concepts.
- Applied Java programming and web development concepts while working on practical application development tasks.

PROJECTS

Personal Portfolio | HTML, CSS, JavaScript (Deployment - Vercel)

- Designed and developed a responsive personal portfolio website featuring Home, About, Skills, Projects, Resume and contact section.
- Built a structured and user-friendly interface using HTML, CSS, and JavaScript.
- Implemented responsive navigation and layouts optimized for both desktop and mobile devices.
- Organized reusable UI elements and improved accessibility and user experience through clear page structure.

Student Management System | Java Full Stack

- Developed a student management application using Java, Spring Boot, Spring Data JPA, and MySQL to manage student records.
- Implemented CRUD operations and REST APIs for adding, viewing, updating, and deleting student details.
- Designed a layered architecture using Controller, Service, Repository, and Entity components and tested APIs using Postman.
